PROJECT INFORMATION

Project Title:
Project Description:
Adhering to the Animal Use Guidelines: I have read the EKRSF HUMAN SUBJECT AND ANIMAL USE GUIDELINES document. My research is ethical by the standards presented.
The Benefits of this Research Outweigh the Risks: All projects involving live animals must have scientific merit, educational value, and avoid gratuitous harm. Every effort must be taken to limit or avoid injury or distress to animals
Ethics Review: This project meets the criteria outlined by the Safety and Ethics Committee of the East Kootenay Regional Science Fair.
Feedback: The results of this research will be made available to you at the public presentation of the Science Fair Project.
